Summary

Frontend Developer with hands-on experience building and deploying React-based web applications. Proficient in React, JavaScript, and Tailwind CSS, with a strong foundation in Data Structures & Algorithms, OOPs, and problem-solving demonstrated through 400+ coding problems solved.

Skills

Languages: Java, Python

Frontend: HTML5, CSS3, JavaScript (ES6), React.js, Tailwind CSS, REST APIs

Core CS: Data Structures & Algorithms, Object-Oriented Programming (OOP), DBMS

Tools: Git, GitHub, Vercel

Database: MySQL

Projects

E-Commerce Platform | Source Code | Live Demo

- Developed a responsive e-commerce web application using React and Tailwind CSS featuring product browsing, search, category filtering, sorting and cart management.
- Implemented client-side routing using React Router and managed global state using Context API for cart and product interactions across components.
- Built reusable, modular components with a mobile-first responsive UI and deployed the application on Vercel.

Smart Routine Planner | Source Code | Live Demo

- Built a responsive routine management app with CRUD operations, including create, update, delete, search, and filter features with priority and category support.
- Implemented progress tracking with completion stats, streaks, and analytics using Local Storage for data persistence.
- Designed a mobile-first, reusable component-based UI and deployed the application on Vercel.

GitHub Profile Finder | Source Code | Live Demo

- Constructed a responsive application to search GitHub users and display profile details including avatar, username, repositories, followers, and stars using the GitHub REST API.
- Integrated async data fetching and exception management to handle edge cases and invalid user Queries.

Education

Dr. Ram Manohar Lohia Avadh University, Ayodhya

Bachelor of Computer Applications (BCA)

CGPA: 8.5/10 | Expected Graduation: 2027

Canossa Convent Girls' Inter College, Ayodhya

Class XII – 89%

Achievements

- Solved 400+ problems across coding platforms including GeeksforGeeks, LeetCode, and HackerRank.
- Completed Google SkillUp – Introduction to Generative AI Studio certification.
